POP CORN NOUN ACTIVITY

DPS Sec-84 Kindergarten students had a wonderful time learning about common and proper nouns through a fun and engaging Popcorn Activity! The classroom was filled with excitement as children sorted popcorn pieces into two big buckets—one for common nouns and one for proper nouns.

Each popcorn piece had a word written on it, and students had to decide if it named a general thing (like dog or school) or a specific name (like Tommy or Delhi). With bright smiles and eager hands, they worked together, sharing their ideas and learning from one another.

The activity helped students understand the difference between common and proper nouns in a playful and hands-on way. It was a great opportunity to build vocabulary, boost confidence, and make learning truly POP!

ACTIVITY-SENSE ORGANS

To help our Kindergarten students learn about the five senses and their corresponding sense organs, we conducted a fun and interactive activity in class. The little ones explored sight, hearing, smell, taste, and touch through engaging, hands-on experiences designed just for them.

Each sense was introduced with real-life objects and playful tasks. The children looked at colorful pictures to learn about sight, listened to various sounds like bells and claps for hearing, identified pleasant and strong smells like coffee, lemon, or flowers for smell, tasted small portions of sweet, salty, and sour foods for taste, and touched different textures like soft cotton, rough sandpaper, and smooth stones for touch.

Through this activity, the students not only had a joyful time but also learned how their eyes, ears, nose, tongue, and skin help them understand and enjoy the world around them. It was a wonderful experience that supported their sensory development and vocabulary growth!

Oval shape took the spotlight as our KG students at DPS84 explored it through a fun-filled activity. Children enthusiastically pasted scrambled paper pieces on oval cut-outs, creating vibrant and colorful artwork. The hands-on experience not only enhanced their understanding of the shape but also sparked creativity and improved fine motor skills. The classroom buzzed with excitement as little hands worked with joy and focus. It was a delightful blend of learning and fun, making the concept of the oval shape both memorable and meaningful for our young learners.

STORY TELLING

A lively and engaging storytelling session was held for our Pre-Nursery children featuring the classic tale of The Little Red Riding Hood. The children listened attentively As the story unfolded, they were introduced to the beloved characters of Little Red Riding Hood, her grandmother, and the cunning wolf. Through storytelling, children were not only entertained but also introduced to important values such as listening to elders and being cautious around strangers. The tale sparked curiosity and thoughtful responses, with many children eagerly interacting and sharing their thoughts about the characters and events. This session helped enhance listening skills, vocabulary, and comprehension while reinforcing a key moral lesson in an age-appropriate and memorable way.

Moral of the Story: Always listen to your parents and never talk to strangers.
